CAREER OBJECTIVE

Full Stack Developer with hands-on experience building production-ready web applications using React, Next.js, Node.js, TypeScript, and MongoDB. Passionate about writing clean, scalable code and delivering seamless user experiences, with a strong focus on AI-integrated tools and modern authentication systems. Seeking a full-stack developer role where I can contribute meaningfully and grow.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript

Frontend: React.js, Next.js, Tailwind CSS, GSAP, Motion,, DaisyUI, Hero UI

Backend: Node.js, Express.js, REST API, Multer, Bcryptjs, JWT

Databases: MongoDB, Mongoose

Auth: JWT, Better Auth, NextAuth, Google OAuth

Tools: Git, GitHub, Figma, Postman, Vercel, Render, ImageKit,

Soft Skills: Problem Solving, Self-Learning, Team Collaboration,

Projects

Klipframe [Live client server](#)

Klipframe is a modern AI-driven web application that enables users to generate high-quality, professional thumbnails for YouTube, videos, and social media using text prompts, aspect ratios, styles, and additional customizations. Users can create, preview, and save their generated thumbnails, which are stored in a personal database for easy access and management.

- AI thumbnail generation using text prompts, title/topic, style selection, color schemes, and aspect ratio customization
- Advanced options including model selection (Premium), user photo upload, and additional prompt refinement for personalized result
- Real-time appointment booking, viewing, updating, and cancellation system
- Personal generation history with saved thumbnails stored in database for easy viewing and management

TechStack: TypeScript, React, Express, MongoDB, Pollination ai, TailwindCSS, Cloudinary, Motion.

Cliniqo [live client server](#)

Cliniqo is a full-stack web application that enables patients to search doctors, book appointments, and manage their healthcare bookings seamlessly.

- Smart doctor search and filtering by specialty, location, experience, ratings, and availability
- Secure user authentication and personalized patient dashboard for managing appointments
- CReal-time appointment booking, viewing, updating, and cancellation system
- Modern, responsive UI with smooth animations

TechStack: TypeScript, NextJS, Express, MongoDB, Better-Auth, JWT, SwiperJS

Coursify [live client](#)

Coursify is a modern, responsive online course platform built with Next.js that allows users to browse, search, and explore courses from world-class instructors with beautifully designed interfaces.

- Advanced course browsing with featured, popular, and new release sections
- Real-time search and filtering with smooth animations
- User authentication including sign up, sign in, and Google OAuth
- User profile management with personalized dashboard and course details

TechStack: TypeScript, NextJS, MongoDB, Better-Auth, Motion, TailwindCSS, react-hot-toast

EDUCATION

Higher Secondary Certificate (2019-2021) GPA -5

Birshreshtha Munshi Abdur Rouf Public College, Dhaka

Web Development (Batch 13) 2026 – Present

Programming Hero, Online
